Sessions on an external platform

Solution chosen by the client on 28/09/2026. Sessions take place on Google Meet or Zoom; the Mentor adds the link for each booking. The screens are built into the role pages and linked to the prototype.

CHOSEN L2

Link per booking

No default link: the Mentor adds the link for each booking. Reminder to the Mentor and alert to the Admin if it's missing 24 hours before.

06 · Mentor › Bookings · Call link
04 · Admin › Dashboard (alert) and booking detail

Estimate 1 day (to be validated)

CHOSEN S1

Clear rules accepted at booking

Versioned policy accepted by the user via checkbox: reports within 48 hours, no refund if the user doesn't show up.

04 · Admin › Settings · Session policy

Estimate 0.5 days (to be validated)

CHOSEN S2

Passive join tracking

Taps on "Join" by the user and the Mentor are logged.

04 · Admin › Bookings · Session log

Estimate 1 day (to be validated)

CHOSEN S3

Session closing by the Mentor

Held or User no-show. Closing adds the session to the report; reminder after 24 hours.

06 · Mentor › Bookings · Session closing

Estimate 2 days (to be validated)

CHOSEN S5

Post-session rating (user)

"How did it go?" from 1 to 5 stars one hour after the session. App side in step 4; backoffice side in Analytics.

04 · Admin › Analytics · Ratings

Estimate 2 days (to be validated)

CHOSEN S7

Predefined outcome rules

User no-show: no refund. Mentor no-show: full refund and a report against the Mentor; the new session proposed is paid. Rules can be switched on from the backoffice, with configurable text.

04 · Admin › Settings · Outcome rules

Estimate 1 day (to be validated)

Estimated total: 7.5 person-days, plus 3 for cancellations and no-shows (to be validated)

Options considered and not adopted

NOT ADOPTED L1 · NOT ADOPTED L3 · NOT ADOPTED S4 · NOT ADOPTED S6 · NOT ADOPTED S8 · NOT ADOPTED S9

Default link and automatic generation via API; attendance log; dispute window with earnings withheld; abuse detection; evidence pack for chargebacks. They remain documented in the Functional Analysis as possible future developments.
